FLORIDA MARINE, L.L.C.
C/O: GALLAGHER MARINE SYSTEMS
ATTN: JOHN J. GALLAGHER
305 HARPER DRIVE
MOORESTOWN, NJ 08057

Dear Sir or Madam:

Plan Control Number 107649, for FMT 2052 (1292853), has been reviewed in accordance with the International Convention for Prevention of Pollution from Ships (MARPOL 73/78) and found to be in compliance with the following requirements:

1. Regulation 37 of Annex I, Shipboard Oil Pollution Emergency Plan (SOPEP); and
2. Regulation 17 of Annex II, Shipboard Marine Pollution Emergency Plan (SMPEP).

This SMPEP approval alone does not constitute approval to carry Noxious Liquid Substances (NLS). The authorization/certification to carry NLS will be noted on the vessel's Certificate of Inspection and/or appropriate IMO certificate.

This approval will remain valid until **September 9, 2030**. You must review your plan annually within one (1) month of the anniversary date of the plan's expiration date and submit a letter to this office certifying that the review has been completed. Any alteration or revision made to the plan, with the exception of those made to the appendices and non-mandatory provisions, must be submitted to this office for review and approval prior to the implementation of the revision. Further, the entire plan must be resubmitted to the Coast Guard for reapproval six (6) months before the end of the approval period of the plan.

I remind you that your plan is a vital working document and that implementing the plan will help ensure effective response and mitigation in the event of an oil pollution incident. Please be sure that all parties with responsibilities under the plan are familiar with the plan's procedures and requirements.

This letter shall be maintained onboard the vessel and placed in the front of the plan.

Sincerely,

A handwritten signature in black ink, appearing to read "A. M. Wrieden".

A. M. WRIEDEN

Lieutenant Commander, U.S. Coast Guard
Acting Chief
Domestic Preparedness and Planning Division
